Place Value Chart

to thousands

Write a number, one digit in each box.
The yellow row shows how.

Thousands 1,000	×10 Hundreds 100	×10 Tens 10	×10 Ones 1	Expanded form add the parts
4	7	2	5	4,000 + 700 + 20 + 5 = 4,725

Each place is 10 times bigger
Move one column left and the digit is worth 10 times more.

Zero holds a place
In 3,042 the 0 shows there are no hundreds.
